What will you choose to do?

- Work with grown ups at home to research more amazing facts about the age of the dinosaurs.
- Visit a tropical animal centre or shop to have a closer look at some modern day reptiles. Take some photographs to show your class.
- Take Dino the dinosaur home for a night and write in his diary about what he got up to!
- Find non-fiction books at home (or in the local library) about dinosaurs. Bring them to school to share.
- Hunt for ferns, yew trees, monkey puzzle trees and other prehistoric plants while you're out and about. You might even find ornamental ferns in the houses of your family and friends.
- Create a dinosaur mask or hat and bring it to school for a dinosaur parade!
- Watch the birds in your garden or local park. Look at them closely with binoculars. Do you think they walk like dinosaurs?
- Work with an adult to produce a dinosaur movie or show using toys, puppets or models. Evergreen bushes and a rocky or dusty area of your garden or local park would make perfect film sets!
- Share stories and poems about dinosaurs with your grown ups. Take on the role of storyteller for any younger members of your family.
- Entertain your family and friends by reading them some side-splitting dinosaur jokes or astounding dinosaur facts.
- Take part in a dinosaur reading challenge. Every time you read a book at home, you'll earn a piece of a cut-up dinosaur picture. Stick them within a dinosaur outline and see how long it takes you to make the whole picture!
