# Curriculum: Intent, Implementation & Impact Statement

Reviewed: March 2023

Review Date: March 2025

## Authors

Chrissie Barrington  
*Executive Principal*

# Greenwood Academies Trust

## GAT Primary Curriculum

Central to the curricula in our academies are the fundamental principles that a curriculum should be:

- of quality
- contextualised to reflect the community of the academy
- developing core transferable knowledge and skills
- securing progress in the core areas of reading, writing and mathematics
- broad and balanced
- meeting the expectations set out in the National Curriculum (2014)
- exciting and engaging

We made the decision as a Trust not to centralise our approach to a curriculum or the schemes of work that are used to deliver that curriculum across our Primary academies.

As we work across a diverse number of regions, our academies have the autonomy to craft and shape a curriculum that meets the requirements of the National Curriculum 2014 and the context of the community it serves. We ensure that it is fit for purpose through our quality assurance processes and annual academy performance review.

We encourage our academies, their leaders and teachers to be innovative and forward thinking in their approach to planning a purposeful curriculum. In order to achieve this we expect our academies to continually review the effectiveness of their curriculum.

## Intent

VALUES	  
INTENT	<p>At Kingswood Primary Academy, we aim to provide all pupils with a stimulating and inclusive educational environment in which everyone feels safe, <u>respected</u> and supported to grow and develop to their full potential.</p> <p>Our purposeful curriculum is therefore designed to give children the entitlement to:</p> <ul style="list-style-type: none"> <li>• <b>Knowledge</b> - develop a rich and deep subject knowledge</li> <li>• <b>Skills</b> - secure basic skills in reading, writing and maths</li> <li>• <b>Enrichment</b> - develop new skills and independence through a variety of contexts and enrichment experiences</li> <li>• <b>Culture</b> - provide a cultural, arts and sporting programme</li> <li>• <b>Aspiration</b> - be curious learners - experiencing the engagement in, challenge and enjoyment of learning</li> <li>• <b>Diversity</b> - gain an understanding of fundamental British Values to inform their own moral code</li> </ul> <div style="display: flex; justify-content: space-around; align-items: center;">       </div> <p>Cornerstones provides the base curriculum framework for the half termly topics for some subjects and themed approaches:</p> <ul style="list-style-type: none"> <li>• Adapted to deliver our intent</li> <li>• Supported by additional schemes of work such as Snap Science, Charanga, Purple Mash, Jigsaw and Primary Languages.</li> </ul> <div style="display: flex; justify-content: space-around; align-items: center;">       </div>
SKILLS FOR LIFE	<p>The curriculum entitlement supports the development of individual essential skills for life through the Skills Builder aspects:</p> <ol style="list-style-type: none"> <li>1. Listening</li> <li>2. Speaking</li> <li>3. Problem Solving</li> <li>4. Creativity</li> <li>5. Staying Positive</li> <li>6. Aiming High</li> <li>7. Leadership</li> <li>8. Teamwork</li> </ol> <div style="text-align: center;">  </div>

At Kingswood Primary Academy, we are committed to equality, based on the following core beliefs.

- We accept and understand everyone for who we are and what we do.
- We play an active and welcoming part in our community and take pride in the environment that we share.
- We nurture determination to become life-long learners with unlimited aspirations.
- We try to ensure that everyone is treated fairly and with respect.
- We want to make sure that our Academy is safe, secure and stimulating place for everyone.
- We recognise that people have different needs, and we understand that treating people equally does not always involve treating them all exactly the same.
- We try to ensure that people from different groups are consulted and are involved in our decisions, for example, through talking to parents, carers, pupils, staff.

# Implementation

The curriculum is not just a list of subjects that are taught in the academy. Our curriculum describes everything that is going on in our academy and helps children to learn about the world around them. We believe that we should provide a broad and balanced curriculum offering the children the opportunity to achieve success in many different areas. Although our curriculum is based on the National Curriculum, there are other planned opportunities that make up the wider curriculum. We like to involve learning inside and outside, promoting their social, moral, cultural and spiritual development.

Where possible we follow make links across the curriculum in the belief that children learn best when logical connections are made between different aspects of their work. We support them in becoming aspirational – aiming high – in order to make the most of their learning.

## Effective Teaching

At Kingswood Primary Academy, we embrace a pedagogy of 'Personalised Learning', an approach that expects all children to reach or exceed national expectations, to fulfil their early promise and develop latent potential. High expectations of progress apply equally to children working above, at, or below age-related expectations, including those who have been identified as having special educational needs. There is an expectation of participation, fulfilment and success; and teaching and learning is characterised by ambitious objectives, challenging personal targets, rapid intervention to keep pupils on trajectory and rigorous assessment to check and maintain pupil progress. There are clear plans to support those who are struggling to maintain trajectory. The teacher's priority is to support and challenge children so that they can keep up with the pace of learning and make good rates of progress.

Traditionally it was expected that teachers would differentiate by task or expectation and many different levels of success were accepted, this approach often ran the risk of lowering expectations. Today, the effective teaching practices at Kingswood Primary Academy see teachers expecting everyone to succeed by offering higher levels of support or extra challenge for those who need it, so that all pupils can access the learning at the expected year group standard.

Key Foci for Effective Teaching:

### 1. Quality first teaching

- Highly focused lesson design with sharp objectives;
- High demands of child engagement with their learning;
- High levels of interaction for all children;
- Appropriate use of teacher questioning, modelling and explaining;
- Emphasis on learning through dialogue;
- An expectation that children will develop resilience and accept responsibility for their own learning and work independently;
- Regular use of encouragement and praise to motivate children.

### 2. Target setting

- Individual children's progress tracked;
- Strengths and weaknesses identified supporting planning and intervention
- Data collected on a regular basis and shared with staff and children;
- Children have regular opportunities to discuss their progress. Teachers actively involve children in setting and reviewing their progress towards their targets;
- Teaching, interventions and revision programmes are adjusted in the light of progress children make;
- Parents and carers regularly are regularly updated on their child's progress;
- Processes run across the whole academy to ensure consistency and are regularly evaluated by SLT to ensure that the needs of all children are being met.

### 3. Focussed assessment

- Rigorous assessment and tracking of children's performance takes place to inform classroom practice allowing children to make good progress and close attainment gaps;
- Day to day, Periodic and Transitional assessments used effectively;
- Assessment for Learning (AfL) evident across the academy – learning objectives, learning outcomes, success criteria, self and peer evaluation

### 4. Intervention

- Individuals and groups who are not making sufficient progress are identified;
- Provision for intervention is mapped according to need;
- Detailed plans are put into place;
- Learners are enabled to perform beyond the norms expected for their year group where appropriate;
- Interventions are evaluated and relevant adjustments are made;
- Staff meet regularly to discuss current and future interventions engaging in dialogue around the impact of interventions, potential barriers and further actions required.

### 5. Learning environment

- Organisation of the classroom/learning environment adapted to the children's learning needs;
- The use of learning resources and IT developed to allow children to work independently and successfully;
- Make effective use of other spaces – 'outdoor classroom', ICT suite, hall space;
- Displays to be a mixture of celebration of children's work, supportive resources and information.

### 6. Curriculum organisation

- The curriculum is designed to cater for the needs and interests of a full range of learners including:
  - *Gifted and talented*
  - *Learners with learning difficulties, including those with speech, language and communication needs*
  - *Learners who are learning English as an additional language*
  - *Boys and girls*
  - *Children who are in care*
  - *Learners with social, emotional and behavioural difficulties*
- Flexibility is built into the curriculum organisation and delivery to ensure greater coherence from the children's perspectives.

### 7. Extended curriculum

- The academy offers a range of 'out of hours' activities and clubs which enhance and extend the basic curriculum;
- We ensure access for all;
- Parents and carers, as well as the wider community, are involved in extended provision;
- Access to other services is provided or arranged, including health and social services.

### 8. Supporting children's wider needs

- The academy maintains close communication with parents and carers;
- We develop and maintain multi agency links to support vulnerable children;
- Employ a 'Family Support Worker as a first point of contact for parents and carers.

## Effective Learning

We acknowledge that people learn in different ways and we recognise the need to develop pedagogies, which enable all children to learn in ways, which suit them.

We offer ways for children to learn in different ways including:

- investigation and problem solving;
- open ended tasks;
- reasoning;
- research and finding out, with independent access to a range of resources;
- group work, paired work and independent work;
- effective questioning;
- presentation and drama;
- use of ICT;
- visitors and educational visits;
- creative activities, designing and making;
- use of multimedia, visual or aural stimulus;
- participation in physical or athletic activity;
- homework;
- extra-curricular clubs and activities.

## Our Curriculum

### EYFS Curriculum

In Reception, we follow the Early Years Statutory Framework as set out in the EYFS Framework 2021 for the Early Years Foundation Stage, published in March 2021 by the DfE. This Framework specifies the requirement for learning and development in the Early Years and provides specific areas of learning we must cover in our curriculum.

These areas are:

- Communication and Language development
- Personal, Social and Emotional Development
- Physical Development
- Literacy
- Mathematics
- Understanding the World
- Expressive Arts and Design

A vital aspect in the development of essential knowledge and skills is the use of continuous provision. This means that children are using and developing certain skills throughout the year on a daily/weekly basis.

Continuous Provision practice and principles begin in Early Years Foundation Stage and support children to develop key life skills such as independence; innovation; creativity, enquiry; analysis and problem solving.

## Key Stage 1 and Key Stage 2 Curriculum

Our curriculum is designed to give children the opportunity to:

- set clear links between different aspects of learning
- develop a rich and deep subject knowledge
- develop new skills and independence through a variety of contexts
- be curious learners - experiencing the challenge and enjoyment of learning
- develop individual strengths.

Where possible our teaching is theme based to allow pupils to make links in their learning across a wide range of subjects, apply their skills in a variety of ways and develops a structured approach to the acquisition, understanding and use of a rich vocabulary.

### English

Our English lessons develop pupils' spoken language, reading, writing, grammar, and vocabulary. English is taught in a cross-curricular way, linking up with other areas of the curriculum. We teach our pupils to speak clearly, to convey their ideas fluently and confidently and to ask questions. Their vocabulary is developed systematically. Our pupils are encouraged to read for pleasure and to read widely.

We use *Little Wandle SSP* for our phonics programme. Phonic awareness helps the development of reading by segmenting and blending sounds. The children will be heard reading individually and in groups. The guided reading sessions cover both fiction and non-fiction books. Guided reading also develops the children's comprehension skills. Parents are given clear expectations about reading at home.

We develop writing skills so that our pupils have the stamina and ability to write at the age expected standard. To support children in moving towards independent writing we provide a wide range of activities including use of film and imagery, modelled, shared and guided writing, peer editing and discussion. We use talk for writing to encourage pupils to express their ideas, exchange ideas and to develop vocabulary that is more sophisticated. We provide opportunities for writing for purpose and we encourage pupils to see themselves as authors. We promote the status of written work by providing opportunities for children's writing to be published and read by real audiences.

Handwriting sessions are incorporated into the English lessons. A range of extra activities are used to promote literacy within the school including an annual focus week, World Book Day and author visits.

National Curriculum English Programmes of Study:

<https://www.gov.uk/government/publications/national-curriculum-in-england-english-programmes-of-study/national-curriculum-in-england-english-programmes-of-study>

### Mathematics

At Kingswood Primary Academy, we ensure that mathematical skills are taught every day following our Medium Term Plans and the *White Rose Maths Hub*. They also use cross-curricular opportunities to develop pupils' mathematical fluency. Our pupils understand the importance of mathematics, are encouraged to be confident in numeracy and to apply the skills that they learn to simple problem solving. The activities cover a wide range of mathematical knowledge, many with an emphasis on practical work. In each lesson, there is a short and simple times tables session. We build on skills and understanding in a systematic and progressive way and continue to develop place value, the four number operations and the understanding of fractional parts. There are extra activities throughout the year to promote mathematical skills and thinking including participation in *World Maths Day* and *Numbers Day*.

National Curriculum Mathematics Programmes of Study:

<https://www.gov.uk/government/publications/national-curriculum-in-england-mathematics-programmes-of-study>

## Science

Science is linked to our wider curriculum work where possible but taught as a separate lesson (supported by *Kapow Science* scheme). We encourage our pupils to be curious about natural phenomena and to be excited by the process of understanding the world around them. Key scientific terminology is introduced each lesson and knowledge will be built upon throughout the school. Pupils are encouraged to work scientifically and will be able to carry out simple tests and experiments using equipment and to gather and record data. Whilst at Kingswood Primary Academy, children learn about plants, animals including humans, materials, seasonal change, habitats, rocks, light, forces, states of matter, sound, electricity, earth and space and evolution and inheritance. Visits by specialists such as *Mad Science* and *Bugtopia*. We also have dedicated science weeks throughout the year.

National Curriculum Science Programmes of Study: <https://www.gov.uk/government/publications/national-curriculum-in-england-science-programmes-of-study/national-curriculum-in-england-science-programmes-of-study#key-stage-1>

## Art and Design

Art has a very important place in our curriculum. We see art as a vehicle for creativity and individual expression and it provides opportunities for collaborative work. It is an important form of cultural expression and, therefore, has significance and meaning for all our children. Our teaching provides an understanding of all the diverse art forms so that the children experience drawing, painting, collage, textiles, 3D designs, printmaking and digital media.

We follow the Kapow scheme of work.

National Curriculum Art Programmes of Study

<https://www.gov.uk/government/publications/national-curriculum-in-england-art-and-design-programmes-of-study>

## Computing

We do have discreet timetable time for the development of IT skills and subscribe to the *Purple Mash* scheme. The children develop their skills, starting in reception with mouse control, keyboard skills, saving and printing work. They draw pictures, write and use the internet to carry out research. They then progress to more complex skills such as data analysis and coding. Pupils will use technology safely and identify where to go for help and support when they have concerns. IT is also used to enhance homework through research skills, spelling and mathematics programmes and challenges, which can be accessed from home via the academy website or at academy.

National Curriculum Computing Programmes of Study:

<https://www.gov.uk/government/publications/national-curriculum-in-england-computing-programmes-of-study>

## Design and Technology

Our design and technology lessons encourage the designing and making of products to solve real and relevant problems. Our pupils learn to select from and use a wide range of materials and components, including construction materials, textiles and ingredients, according to their characteristics.

We follow the Kapow scheme of work.

National Curriculum Computing Programmes of Study:

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/239041/PRIMARY\\_national\\_curriculum\\_-\\_Design\\_and\\_technology.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/239041/PRIMARY_national_curriculum_-_Design_and_technology.pdf)

## Modern Foreign Language

From Year 3 to Year 6 we teach French to all children and subscribe to the *Primary Languages Network*. Our approach is to make learning a new language fun! Young pupils are very receptive to learning a new language; they like to mimic pronunciation and they can easily pick up and duplicate new sounds. They feel a real sense of accomplishment when they learn to say something new.

National Curriculum Language Programmes of Study

<https://www.gov.uk/government/publications/national-curriculum-in-england-languages-programmes-of-study>

## Music

In their music lessons, pupils use their voices expressively and creatively by singing songs and speaking chants and rhymes. Assemblies also provide an opportunity to practise singing. Pupils also experience playing a variety of instruments musically and encouraged to play together in ensemble groups. We encourage listening to a wide range of music with concentration and understanding. Music lessons are linked to the class theme and music is used in a variety of lessons and activities to create, mood, atmosphere and to help thinking. The *Charanga* programme will support our teaching of music across the school.

National Curriculum Music Programmes of Study:

<https://www.gov.uk/government/publications/national-curriculum-in-england-music-programmes-of-study>

## Physical Education (PE)

Our PE sessions are both indoor and outdoor for Reception and Key Stage 1. They focus on mastering basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination. Pupils are encouraged to participate in team games and to develop simple tactics for being an effective team member. Key Stage 2 pupils will also complete lessons inside and outside and may visit other facilities including the local swimming pool. Swimming is introduced to the timetable from Key Stage 2. We ensure wider participation in the community by involvement in interschool sports and swimming tournaments, local authority and Trust based competitions.

PE Programmes of Study:

<https://www.gov.uk/government/publications/national-curriculum-in-england-physical-education-programmes-of-study>

## PSHE

PSHE, or personal, social, health and education, is a planned programme of learning (*Jigsaw PSHE*) through which children and young people acquire the knowledge, understanding and skills they need to manage their lives. As part of a whole school approach, PSHE develops the qualities and attributes pupils need to thrive as individuals, family members and members of society. It prepares them to manage many of the most critical opportunities, challenges and responsibilities they will face growing up in such rapidly changing and challenging times. It also helps them to connect and apply the knowledge and understanding they learn in all subjects to practical, real-life situations while helping them to feel safe and secure enough to fulfil their academic potential. In our programmes, we actively promote British values of democracy, the rule of law, individual liberty, and mutual respect and tolerance of those with different faiths and beliefs to prepare our pupils for life in modern day Britain. Our citizenship lessons enable our pupils to understand the British democratic process and how to effect peaceful changes in society.

All our year groups have timetabled PSHE time but we encourage a cross-curricular approach to the development of PSHE skills and understanding. Pupils learn about similarities and differences between people and cultures. They participate in a variety of cultural events such as Diwali, Shrove Tuesday and Chinese New Year. Planting and growing things are important aspects of our PSHE curriculum and we link this to an understanding of healthy eating. All pupils are taught using the *Jigsaw* programme, and *Protective behaviours*.

The Jigsaw programme of work underpins the qualities and skills that help us manage life and learn effectively. We look at self-awareness, how to manage feelings, motivation, empathy and social skills. Children are encouraged to respect others, develop good relationships with other members of the academy and wider community. The academy supports a positive disposition to learning (Growth Mind-set) and for the children to become healthy independent and responsible members of society.

The academy also delivers careers education through an annual programme of events including interactions with local employers, aspiration surveys and participation in local and national careers events. The academy has been awarded the Primary Careers Mark.

### ***SRE (Sex and Relationship Education)***

Sex and Relationship Education develops life-long learning about physical, moral and emotional development. This will include understanding the importance of; marriage for family life, stable and loving relationships, respect, care and love. The programme of work is tailored to the age, physical and emotional maturity of the children in the classes. As they begin to develop into young adults, they face the changes of puberty. Our oldest children receive information about how this may affect them personally in the future.

### ***Drug Education***

Drug education focuses on prevention. This is due to primary aged children being exposed to mixed messages particularly around medicines, alcohol and tobacco. The work equips the children with knowledge and skills; this allows them to develop attitudes about all these substances from an early age.

National Curriculum PSHE programmes of Study

<https://www.gov.uk/government/publications/personal-social-health-and-economic-education-pshe>

### ***Religious Education***

We follow the Discovery RE scheme. Religious Education (RE) is taught to all children except those who are taken out by their parents. Our teaching promotes the spiritual, moral, social and cultural development of our pupils. It reflects the fact that the religious traditions in Great Britain are in the main Christian whilst taking account of the teaching and practices of other principal religions represented in Great Britain. Our teaching enables pupils to acquire knowledge and understanding of religious beliefs, attitudes, practices and rituals. They will also develop their own beliefs and values. We will not convert or steer pupils towards a particular religious belief. They will also be aware that some people have no attachment to religious beliefs and follow secular philosophies.

Religious Education DfE Guidance

<https://www.gov.uk/government/publications/religious-education-guidance-in-english-schools-non-statutory-guidance-2010>

### ***Geography***

At Kingswood Primary Academy we follow the national curriculum for geography. In geography in Key Stage 1 pupils develop their knowledge about the world, the United Kingdom and their locality. They learn to understand basic subject-specific vocabulary relating to human and physical geography through the study of the seaside, continents and oceans.

In geography in Key Stage 2 pupils extend their knowledge and understanding beyond the local area to include the United Kingdom and Europe, North and South America. This will include the location and characteristics of a range of the world's most significant human and physical features. They develop their use of geographical knowledge, understanding and skills to enhance their locational and place knowledge.

To **enrich** children's learning in geography children participate in visits to outdoor locations such as West Lodge Farm and East Carlton Country Park.

At Kingswood Primary Academy we recognise the importance of understanding the underpinning concepts and disciplinary knowledge that are needed for all children to be successful in geography. As such children will be taught to understand geographical concepts such as place, space, scale, interdependence, physical and human processes, environmental impact, sustainable development, cultural awareness, and cultural diversity.

<https://www.gov.uk/government/publications/national-curriculum-in-england-geography-programmes-of-study>

## History

At Kingswood Primary Academy we follow the national curriculum for history. In history pupils develop an awareness of the past, using common words and phrases relating to the passing of time. They are taught where people and events they study fit within a chronological framework and identify similarities and differences between ways of life in different periods. Pupils are taught changes within living memory through the study of changes in toys and transport. Pupils are taught about events beyond living memory that are significant nationally or globally such as the Great Fire of London and Remembrance Day. They also learn about the lives of significant individuals in the past who have contributed to national and international achievements such as Guy Fawkes, Florence Nightingale, Christopher Columbus, and Queen Elizabeth II.

In history, our Key Stage 2 pupils study changes in Britain from the Stone Age until the end of the Viking era plus a study of a significant event in British history post 1066 – World War II. They study the achievements of European ancient civilisations and their impact on our world today such as the Ancient Greeks and non-European ancient civilisations such as the Mayans and Ancient Egyptians. In Key Stage 2 children follow a yearly cycle for history.

The choice of History units is informed by the national curriculum and are sensitive to children's interests, as well as the context of the local area. The history curriculum at Kingswood Primary Academy is carefully planned and structured to ensure that current learning is linked to previous learning and that the school's approaches are informed by current pedagogy. In line with the national curriculum 2014, the curriculum at Kingswood aims to ensure that all pupils:

To enhance children's learning in history, children participate in visits to outdoor locations such as Rockingham Castle and Flag Fen archaeological site. Children also enjoy immersive in school experience days such as historical workshops, visits from local historians and British Celebration experiences such as holding a street party.

<https://www.gov.uk/government/publications/national-curriculum-in-england-history-programmes-of-study>

## Enrichment

We are committed to the broadest educational offering, and that means looking beyond the National Curriculum. A very successful enrichment programme that draws upon a wide range of adult skills is offered through school trips, visiting specialists and themed days and weeks. The programme is planned throughout the year.

### ***Trips and Visits***

We plan a series of trips throughout the year for each year group and these are communicated to parents at the start of the academic year. We also organise a residential trip to Condover Hall for Year 6.

### ***Workshops and specialists***

Each year group takes part in a variety of workshops throughout the academic year. These will link to their class or to a whole school theme. We invite specialists from a range of outside agencies e.g. History Off the Page, Subject Revolution (Maths and Reading) and Raptorxotics.

### ***Themed days and weeks***

We also have themed days and weeks throughout the year. Themed days are also incorporated into curriculum. These may be designed to fit with national initiatives e.g. *World Book Day*, to match with events in the UK e.g. a national election and to highlight our curriculum subjects e.g. *Art Day*.

### ***Homework***

Homework is an important part of supporting pupils at Kingswood Primary Academy. Homework is not intended to be onerous but it does help support children's progress and includes daily reading at home, and weekly Maths and spelling activities.

We also issue half-termly creative homework projects. These projects are theme related and give the children six possible homework projects that they can complete across the term. Children are asked to complete at least two projects over the course of a term. The projects themselves vary- ensuring there is a mix of writing, creative, scientific, mathematical, historical or geographical tasks. Children are expected to hand in completed work on the last week of term.

### **The Role of the Academy Advisory Council (the AAC) & Trust Governance (the Trust Board)**

Our local academy council are involved in supporting the academy in its delivery of its aims and values for the quality of teaching and learning. The monitoring of the consistent approach to Teaching and Learning at the Example Primary Academy is undertaken by the Primary Education Team, in the main through a linked Senior Education Adviser.

### **The Role of Parents**

We believe that parents have a crucial role in helping their child to learn. We do all that we can to inform parents about the progress of their child by:

- Holding parent consultation evenings in the autumn and spring terms. Parents are invited to discuss on an individual basis, the work their child is involved with.
- Sending an Annual Report home in July.
- Inviting parents to regular events in the academy through the year such as Christmas Performances, Harvest, other concerts, celebration assemblies, sports days and curriculum events and theme days.
- Encouraging parental help which supports the teaching in school - there are many ways parents can support us in the academy from hearing readers, looking after resources and helping with fund raising events that the PTA hold.
- Organising family learning events on a regular basis. These usually relate to Maths, English or IT skills.
- Publishing regular newsletters and class newsletters to inform about life in school as well as notices in the boards outside classrooms.

# Impact

The main source of impact will always remain the quality and breadth of work seen in pupil's books and the learning environment. As an academy we are striving to raise the expectation of learners and the quality of work they produce from a rounded and connected curriculum. We ensure there are always opportunities for application of learning within and across subject disciplines.

The impact of our curriculum should also be measured by assessment procedures, which allow us to measure outcomes against all schools nationally:

- EYFS % of pupils achieving a 'Good level of development' (GLD)
- Phonics Screening Test at the end of Year 1
- End of KS1 % of children working towards or at the expected standard and at Greater depth in reading, writing and maths
- End of KS2 % of children working towards or at the expected standard and at Greater depth in reading, writing and maths

Furthermore, the impact will be measured by how effectively it helps our pupils develop into well-rounded individuals who embody our values and carry with them the knowledge, skills and attitudes, which will make them lifelong learners, and valuable future citizens.
